ESTIMATES FOR CIVIL SERVICES.

Memorandum by the Financial Secretary to the Treasury.

General.

1. There are two changes in the form of the Estimates for 1895–96. The first is the appropriation of Extra Receipts in aid of Expenditure in connection with "Surveys of the United Kingdom" (Class I., 10); and the second is the amalgamation of the Estimate for "Diseases of Animals" (hitherto included in Class VII.) with the Estimate in Class II. of the Board of Agriculture. Also, in pursuance of the Local Government (Scotland) Act, 1894, the Board of Supervision has been superseded by the Local Government Board, Scotland, and provision is made in Class II., No. 35, for the latter Department.

2. The number of Votes in the original Estimates for the current financial year, as for 1893–94, was 108; for 1895–96 it is 109,—the net increase of one being due (i) to the addition of Estimates (*a*) for British Protectorates in Uganda and Central Africa; (*b*) for Cyprus, Grant-in-Aid; and (*c*) for Relief of Distress (Ireland); and (ii) to the omission of the Estimate for the Hobart (Tasmania) Exhibition, and to the amalgamation of the Diseases of Animals Estimate with that for the Board of Agriculture, as mentioned above.

3. The Civil Service Estimates for 1895-96 exceed the Parliamentary Grants for 1894–95, as shown in the Appropriation Act, 1894, by a net sum of 456,706*l.*, as against a corresponding increase of 544,658*l.* last year. The percentage of net growth over the previous year's grants, which was 3 per cent. in 1894–95, is under 2½ per cent. for 1895–96.

4. The net increase of 456,706*l.* in 1895-96 is accounted for as regards 385,655*l.* by increases under Class IV., "Education, Science, and Art." The total net Grants in the Session of 1892 for the seven Classes of Civil Service Estimates amounted to 17,626,875*l.*, to which Class IV. contributed 8,646,231*l.*, or slightly less than one-half. The seven Classes of the Estimates for 1893-94 together exhibited a net increase over 1892–93 of 503,054*l.*, which was more than covered by the increase of 525,985*l.* on Class IV. alone. In 1894–95 this Class increased by 469,864*l.*, and the seven Classes together by 544,658*l.*, while for 1895-96 Class IV. is further increased by 385,655*l.* out of a total net increase of 456,706*l.* on the Civil Service Estimates as a whole. Comparison of the net Estimates, 1895–96, with the net Grants in the Session of 1892 shows that, while the seven Classes together have increased by 1,670,869*l.*, Class IV. has increased by 1,386,604*l.*, or 83 per cent. of the total increase. Taken by itself, Class IV. has increased in the same period by 16 per cent., whilst the remaining six Classes have increased by scarcely more than 3 per cent.

5. The English and Welsh Votes (so far as they can be discriminated) show a net increase of 295,042*l.*; the main item being 259,896*l.* for Elementary Education, while Law Charges and Prisons account for 23,533*l.* of the remainder.

The principal items of growth among the 13 purely Scottish Votes appear under the same heads as in England and Wales: Elementary Education (59,813*l.*), Law Charges (8,738*l.*), and Prisons (5,118*l.*). These more than account for the total net increase of 68,789*l.* in the Scottish Votes, the decrease on the Peterhead Harbour Works counterbalancing the other additions, the chief of which are the necessary provision for the new Local Government Board and the increase of 3,000*l.* for Works in the Highlands and Islands.

One-half of the net growth of 91,011*l.* on the 26 purely Irish Votes is explained by the Grant of 45,000*l.* for Relief of Distress, and the other half by the automatic increase of 17,717*l.* in respect of Railways, and the addition for Elementary Education of 29,015*l.* Unlike those for Great Britain, the Irish Votes for Law and Justice again show a net reduction, the only appreciable increase being under the head of Constabulary.

In the foregoing figures no account has been taken of the numerous Votes containing English, Scottish, or Irish items combined with others. It would be difficult to attempt any analysis in these cases.

6. Falling prices of commodities have enabled a reduction to be made in many of the "Victualling" Sub-Heads in Class III.; and the absence of an anticipation of higher prices for coal has resulted in a decrease in Class I. of many of the "Fuel, Light, &c.," Sub-Heads.

Class I.—Public Works and Buildings.

The general feature of Class I. is the continued increase of the Maintenance Sub-heads, partly due to higher wages and partly due to the increasing number of buildings in Government occupation. Whereas in 1894-95 there was an increase on many of the Fuel, Light, &c., Sub-heads, there is a general decrease shown thereunder in the Estimates for 1895-96, owing to the lower prices anticipated for coal.

The net increase of 38,220*l.* on this class as a whole is more than covered by the increase of 48,043*l.* on the Estimate for Rates on Government Property, and almost covered by the increase of a single Sub-head (D) of that Estimate, in consequence of increased demands by local authorities for contributions in lieu of rates on property occupied by the Government, particularly in the metropolitan area. Next in importance, as regards increase, comes the Estimate for Revenue Department Buildings, with a net increase of 25,100*l.*, and the Estimate for Railways, Ireland, with an automatic increase of 17,717*l.* The increase on Revenue Department Buildings arises principally from an increase of 12,875*l.* on New Buildings for the Inland Revenue Department, of 2,950*l.* for New Customs Buildings, and of 10,000*l.* for New Postal and Telegraph Buildings. There are also increases on the Royal Parks Estimate (6,988*l.*), and on the Estimate for Public Works and Buildings, Ireland (1,896*l.*),—decreases being shown on the remaining ten Estimates of the Class,

Class, though the decrease is formal only in the case of the Survey Estimate, to which the system of appropriating Receipts in Aid of Expenditure is now for the first time applied. The increase on the Royal Parks Estimate is due to two main causes—(i.) the Renewal of the Engines, &c., at Kew Gardens (3,025*l.*), and (ii.) provision for an Improvement in the Wages paid for Labour in the Royal Parks. Among Estimates showing a decrease the most notable is that for extending the Admiralty Buildings, which is 15,000*l.* less than last year. The new block will be practically finished and furnished early in the year, and a commencement will be made with Block 2. The decrease of 12,678*l.* on the Estimate for Miscellaneous Legal Buildings is due to the fact that provision was made in 1894–95 for the contribution of 21,500*l.* towards the cost of the Glasgow Court House, an unusually large item.

Class II.—Civil Departments.

The net increase on this Class as a whole is 16,499*l.*, which compares with a corresponding increase of 12,260*l.* in the current year.

The most noteworthy change is due to the inclusion in the Board of Agriculture Estimate of the provision for Diseases of Animals, as above mentioned. The provision for Swine Fever is retained at the maximum statutory limit of 50,000*l.*, whilst the success attending the efforts to stamp out Pleuro-pneumonia, &c., has resulted in a reduction of 10,000*l.* in the Grant-in-Aid asked for this service in 1895–96. Special provision of 3,000*l.* has been made in the Board of Agriculture Estimate for a Return of Agricultural Holdings.

In the Mercantile Marine Fund Estimate provision is again made of 11,000*l.* for Electrical Communication with Lighthouses.

The Stationery Office Estimate, which in the current financial year showed a net increase of 7,773*l.*, shows a corresponding further increase in 1895–96 of 5,325*l.* (counterbalanced by anticipated Receipts), due to the growing cost of printing for Public Departments.

Apart from the provision for the first time in the Treasury Estimate for the salary of the newly-appointed Government Chemist, the principal remaining increases in Class II., to which attention may be drawn, are in connection with the Local Government Boards of England, Scotland, and Ireland. In England there is an increase of 6,963*l.*, of which 4,191*l.* is due to the Salaries and Expenses of additional Auditors, &c., under the Local Government Act, 1894, in connection with the Accounts of Parish Councils, whilst extra provision has been made to the extent of 850*l.* for Scientific Investigations in the interests of Public Health. In Scotland, the increase of 2,869*l.* is due to the replacement of the Board of Supervision by the Local Government Board (Scotland), with the larger staff required to administer the Local Government (Scotland) Act, 1894. In Ireland, the gross expenses of the Local Government Board show an increase of 1,770*l.*, chiefly as the automatic result of increased work by the Central Office and by the Inspectorate. No charge is to be borne by the Vote for the Local Government Board (Ireland) in respect of the Relief of Distress, for which separate provision is made in the current and the coming financial years.

Class III.—Law and Justice.

As against the net decrease of 45,519*l.* in the current financial year, which followed a decrease of 10,053*l.* in 1893–94, a net increase of 19,078*l.* is shown upon the total of this Class for 1895–96, though falling prices have, in many cases, enabled reductions to be effected upon "Victualling" and "Fuel, Light, &c.," Sub-heads.

The chief individual increase in the Class is that of 11,861*l.* on the Estimate for Prisons, England and the Colonies, which, whilst exhibiting decreases on several Sub-heads, including those mentioned in the preceding paragraph, shows an increase of no less a sum than 24,630*l.* in respect of "New Works and Alterations" (Sub-head M.). Provision is made under this Sub-head in 1895–96, not only for hastening on the construction of Officers' Quarters and the improvement of Hospital accommodation, &c., throughout the several Prisons, but also for an initial expenditure of 16,800*l.* on a large scheme of works of construction and improvement at Dartmoor, Portland, and elsewhere. The increase of 5,118*l.* on the Scottish Prisons Estimate is similarly due to heavier expenditure on buildings, provision being made for the completion of a new block at Barlinnie Prison within the coming financial year. On the Irish Prisons Vote a decrease is shown of 6,138*l.*, the Vote having steadily diminished since 1885–86.

Under the Estimate for Reformatory and Industrial Schools, Great Britain, provision has been made for an addition to the Inspectorate, with a view to increasing the Government control over these institutions.

Increases of 11,672*l.* and 8,738*l.* occur on the Estimates for Law Charges, England and Scotland, respectively. In part, these increases are due to the fact that, under the arrangements of last Session, the salaries of the Law Officers of the Crown in England and in Scotland now cover the contentious as well as the non-contentious business on which the Law Officers act for the Government. As a counterbalancing result to these increases on the Law Charges Estimates, reductions may be expected on various other Votes, from which from time to time fees were paid to the Law Officers for Departmental business of a contentious nature. In the case of the English Estimate, heavier expenditure is anticipated in connection with criminal and other legal proceedings to be taken on behalf of the Crown. On the Scottish Law Charges Vote a considerable reduction (8,220*l.*) will be observed on the Appropriations in Aid Sub-head. This reduction is formal only, a special increase of 8,700*l.* having been shown on the Sub-head in 1894–95 in connection with the introduction, in the current year, of a new and more prompt method of accounting.

Alike in England and in Ireland a decrease is shown on the Estimates for the Supreme Court of Judicature.

Whilst the Estimate for the Dublin Metropolitan Police shows a net decrease of 5,044*l.* (of which 3,000*l.* represents Vacancies in the Force, which will not be filled up in the year), the Irish Constabulary Estimate, notwithstanding further reductions in the Force, exhibits a net increase of 7,212*l.* as a result of the heavy increase of 12,342*l.* on the growing Sub-head for Pensions.

Class IV.—Education, Science, and Art.

The net total of this Class amounts to 10,032,835*l.*, or 385,655*l.* more than the Grants in the Session of 1894. An increase is shown on 12 out of the 14 Estimates forming the Class, the exceptions being Queen's Colleges (which is stationary), and the National Gallery (which shows a decrease of 5,028*l.*, of which 5,000*l.* represents a Supplementary Estimate for special purchases in 1894).

The chief increases are on the three Public Education Estimates, and on the Estimate for the Science and Art Department.

The net increase of 259,896*l.* on the Estimate for Public Education, England and Wales, arises mainly under the still growing heads of (*i.*) Annual Grants for Day Scholars (the number of scholars being higher by 133,813, and the rate of Grant being higher by 2*d.* per scholar), and (*ii.*) Fee Grants for Day Scholars, whose number is estimated to increase by 158,000 in the coming financial year. Considerable increases are also shown in connection with Annual Grants for Evening Scholars (where the Grant rises by 4*s.* 4*d.* per head, while the numbers are expected to drop by 30,441), and in connection with Pensions and Gratuities to Teachers. Provision is also made for a Director of Special Inquiries and Reports, at a total cost of 1,490*l.*

The Estimate for Public Education, Scotland, similarly anticipates a considerable increase (18,574*l.*) under the head of Annual Grants for Day Scholars, the number of whom is expected to increase by 19,752, though the rate of Grant is set down at 1*d.* less than last year's high-water mark of 21*s.* 4*d.* But, unlike the English Department, the Scottish Education Department anticipates a rise, not only of 8*s.* 6*d.* per head in the Grant, but also of 5,714 in the numbers of Evening Scholars for whom Annual Grants are payable. There is also an increase of 11,344*l.* under the head of Fee Grants for Day Scholars.

Public Education, Ireland, for which 859,801*l.* was granted in the Session of 1892, stands for 1895–96 at a net total of 1,128,807*l.*, a net increase of 29,015*l.* over the Grants of last Session. In addition to an increase of 24,000*l.* under School Grants (Sub-head I.), increases are also shown under all the other heads of the Estimate, with one exception.

The expenditure of the Science and Art Department is estimated to increase by a net sum of 27,033*l.*, as compared with the Grants in 1894, the total increase over the Grants in 1892 being 119,101*l.*, or at the rate of about 20 per cent. for the whole period. The principal heads under which the additional expenditure is expected to accrue are payments on results of examination, viz., Science, 7,500*l.*; Art, 5,500*l.*; Drawing, &c., in Elementary Schools and Training Colleges, 7,300*l.*

In connection with the Estimate for the British Museum, which shows a net increase of 3,505*l.*, Sub-heads K. and T. together show a net charge on 1895–96 of 1,800*l.* in respect of the purchase of adjoining property, under the provisions of the Act 57 & 58 Vict. c. 34. Sub-head C. has been increased this year by 1,000*l.* in order to enable additional purchases to be made for the Museum by the Trustees.

As it is hoped that the new National Portrait Gallery will be opened to the public early in the coming financial year, increased provision to the amount of 1,490*l.* has been made for salaries and expenses.

The Estimate for Universities and Colleges, Great Britain, and Intermediate Education, Wales, provides 13,000*l.* as the last instalment of the Grant in Aid of the enlargement of the buildings of Aberdeen University, and 5,000*l.* as the first moiety of a similar grant to Aberystwith College. The number of Welsh Counties which will avail themselves in 1895–96 of the Grants in Aid of Intermediate Education has doubled, while the amount to be paid has more than trebled as compared with 1894–95.

Class V.—Foreign and Colonial Services.

The Diplomatic and Consular Services Estimate calls for no particular remark except in connection with the new Sub-head Y., which has been raised to provide a sum of 6,000*l.* as a first instalment towards repaying certain surplus Tonnage Dues to the Seamen's Hospitals in the Levant, the expenses of which will no longer be borne by Votes of Parliament.

The two Grants in Aid of British Protectorates in Uganda and in Central Africa, which appeared as separate Additional and Supplementary Estimates, 1894-95, are amalgamated, and appear for the first time as an original Estimate.

A reduction of 25,303*l.* on the Colonial Services Estimate is accounted for chiefly by a decrease of 20,000*l.* in the sum which is deemed necessary as a Grant in Aid of the expenditure of British Bechuanaland.

A sum of 45,000*l.* is provided as a Grant in Aid of the expenditure of the Island of Cyprus for 1894–95.

A decrease of 1,073*l.* is anticipated on Slave Trade Services.

Class VI.—Non-Effective and Charitable Services.

A net increase of 3·4 per cent. is shown on the Estimate for Superannuation and Retired Allowances, which is the average rate of net increase for recent years.

As a result of the still diminishing yield of investments on behalf of Trustee Savings Banks Funds, an additional sum of 5,441*l.* is provided, in order to pay interest to Trustees at the statutory rate.

The Estimate for Pauper Lunatics, Ireland, shows an increase of 2,931*l.*, due to growth of numbers.

Class VII.—Miscellaneous.

A net decrease of 14,767*l.* on the Temporary Commissions Estimate is due to the termination of the labours of several important Commissions, for which provision was made in 1894–95. The principal Commissions for which provision is now specifically made for the first time are those dealing with Secondary Education and Financial Relations between Great Britain and Ireland.

The

The Estimate for the Highlands and Islands of Scotland (Public Works and Communications) includes a provision of 3,900*l.* for Minor Roads, a service for which no provision was made in 1894–95, and an increase of 2,500*l.* in respect of Piers and Harbours. The total net increase, as compared with last year, is 3,000*l.*

The Estimate for Repayment to the Local Loans Fund provides further instalments of annuities, as provided by statute, for repaying to the Local Loans Fund sums written off from its assets by Parliament.

For Relief of Distress (Ireland) a sum of 45,000*l.* is provided, making, with the Supplementary Estimate of 28th February 1895, a total provision of 80,000*l.* for this service.

Revenue Departments.

Customs—Net decrease 7,550*l.*—As last year, there is an increase on the sub-heads for Salaries and Travelling. The increase of 2,550*l.* under Sub-head A. is chiefly due to the additional staff required in the Statistical Office for the preparation of a Central Stock Account. Provision is made under Sub-head C. for the purchase (2,500*l.*) of a new Launch for service on the Firth of Forth. A reduction of 7,310*l.* has been effected in connection with Port establishments, and of 1,050*l.* under the Superannuations sub-head, a like sum being added to Appropriations in Aid in reduction of the net sum to be voted.

Inland Revenue.—The net decrease of 27,375*l.* on the current year's estimates is more than counterbalanced by the net increase of 33,508*l.* on the estimates for the coming financial year. The net increase results in the main from three permanent causes, viz.—(i.) the revision and augmentation of Indoor Establishments; (ii.) improvements in the scales of pay of Excise officers; and (iii.) the appointment of additional surveyors of taxes for new tax districts owing to growth of population. There is also an increase of 5,143*l.* on the Superannuation sub-head.

Post Office—Net increase 96,055*l.*—The principal items of increase are :—

	£.
Provincial Establishments	103,770
Purchase of Sites and Buildings	20,500
Superannuations	4,600

With a slight increase on the Conveyance of Mails, there is the very considerable decrease of 17,140*l.* on the Cost of Mail Bags, &c. The manufacture of Postage Stamps, which showed a decrease of 17,940*l.* in the current financial year, is expected to show in 1895–96 the further decrease of 11,410*l.* On Uniform clothing a decrease of 14,600*l.* is expected, the charge for 1894–95 having been abnormally increased by 41,550*l.* in connection with the periodic issue of great coats.

Packet Service—Net decrease, 16,801*l.*—This arises chiefly from (i.) the termination of the Convention under which 4,500*l.* per annum was contributed towards the cost of the Belgian Mail Packet Service; and (ii.) the reduced amount of Foreign Closed Mails which will pass through the British Mail Service with the United States.

Telegraphs—Net increase, 28,658*l.*—The principal items of increase are :—

	£.
C. 1.—Wages, &c.	5,400
E. 1.—Pay at the Central Office	6,470
G. 1.—Pay in the Provinces	16,460
M.—Superannuations	4,036
N.—Purchase of Sites and Buildings	6,750

By Sect. 82 of 19 & 20 Vict. c. 108, a Registrar was paid 120 *l.* for the first 200 plaints entered in a year in a Court; and 5 *l.* for every 25 plaints entered to 1,000, and then by 4 *l.* till the plaints reach 6,000; out of this salary the necessary clerks are paid by the Registrar. When the plaints reach 6,000, a net salary of 650 *l.* is paid, and 12 *l.* 10 *s.* for every additional 500 plaints up to 8,000, making a maximum salary of 700 *l.*, with an allowance for clerk hire (51 & 52 Vict. c. 43, s. 188).

By Sect. 14 of 29 Vict. c. 14, the above scale was reduced, as regards Registrars thereafter appointed, to 100 *l.* for the first 200 plaints, and 4 *l.* for every 25 plaints up to 6,000, instead of 5 *l.* and 4 *l.*, as last stated, and is so reduced by 51 & 52 Vict. c. 43, s. 45.

By 51 & 52 Vict. c. 43, s. 37, on a vacancy occurring in the office of High Bailiff, the Registrar, if appointed subsequent to 1866, must perform the duties of High Bailiff, unless the Lord Chancellor, with the consent of the Treasury, otherwise determine. His remuneration is a sum equal to one-fifth of his *net* salary as Registrar, with an allowance for the service and execution of process. The salary of a Registrar from all sources may not exceed 1,400 *l.*

By Sect. 46 of 51 & 52 Vict. c. 43, the High Bailiffs are paid partly by salaries and partly by allowances, which vary in amount according to the circumstances of each district.

* The remuneration payable for these services is a fixed proportion of the amount levied by Bankruptcy Fee Stamps in the cases dealt with in County Courts. These stamps amount to about 36,000 *l.* For scale, *see* House of Commons Paper, 148 of 1888, page 11.

† The remuneration payable for these services is a fixed proportion of the fees received under the Companies (Winding-up) Act in the cases dealt with in County Courts.

*Prior to 1850 the Procurators Fiscal were remunerated by fees for all business chargeable in Exchequer; and the above Salaries, which include clerical assistance and office expenses, were fixed, with reference to the amount of fees in each case, on an average of years. In addition to these Salaries the Procurators Fiscal receive allowances from County Rates for business not falling under the rule of payment in Exchequer, and occasional fees from other rates, and from private parties for prosecutions under special statutes. The amounts of these extra allowances for the year ended 31st March 1894 are stated in the first column above. The extra allowances in several cases include necessary outlay. Procurators Fiscal receive also allowances from public funds for services not connected with their office, which are stated under "Extra Remuneration" on the Appropriation Account of the Vote.

E.—Under Article 134 of the New Code, a limited number of pensions may be granted to certificated teachers who have been employed in that capacity since 1862, when the former Minutes relating to pensions were cancelled; but it is also provided that this limit "shall not affect the claims of teachers who were employed before August 1851."

F. and G.—The *numbers*, 4,334,274 Day Scholars and 135,748 Evening Scholars, are arrived at as follows:—

	Day Schools.	Evening Schools.
Average number of Scholars in attendance in Schools actually inspected in the year ended 31st August 1894	4,225,834	115,530
Add for increase for one year for Day Schools, 1·75 per cent.	73,952	—
Add for increase for one year for Evening Schools, at 17·5 per cent.		20,218
Estimated average number in attendance at Schools to be inspected in the year ending 31st August 1895	4,299,786	135,748
Add for increase in Scholars for the *seven** months to follow from 31st August 1895 up to 31st March 1896, viz.:—		
Five-and-a-half Twelfths* of 1·75 per cent. on 4,299,786 Day Scholars	34,488	—
Estimated average number of Scholars in attendance in Schools to which Grants will be paid in the year ending 31st March 1896	4,334,274	135,748

The *rate* of Grant actually paid per *day* scholar, according to the average number in attendance, for the years ending 31st August, rose under the Revised Code from 8 *s.* 1 *d.* in 1863 to 9 *s.* 9¼ *d.* in 1870. The Grant for the year 1871 was 10 *s.* 1¾ *d.*; it was paid partly under the Revised Code, and partly under the New Code, 1871. The rate under the New Code rose from 11 *s.* 9¾ *d.* in 1872 to 15 *s.* 10¾ *d.* in 1882. It was 16 *s.* 1¼ *d.* in 1883, viz., 16 *s.* 0¾ *d.* under the Code of 1881, and 16 *s.* 2¼ *d.* under the New Code, 1883; it was 16 *s.* 8 *d.* in 1884, 17 *s.* 0¼ *d.* in 1885, 17 *s.* 3 *d.* in 1886, 17 *s.* 5¼ *d.* in 1887, 17 *s.* 6½ *d.* in 1888, 17 *s.* 9 *d.* in 1889, 17 *s.* 10 *d.* in 1890, 18 *s.* 4 *d.* in 1891, 18 *s.* 5 *d.* in 1892, 18 *s.* 5½ *d.* in 1893, and 18 *s.* 7 *d.* in 1894; it is estimated at 18 *s.* 8½ *d.* for the financial year ending 31st March 1896.

The rate of Grant per *evening* scholar, according to the average numbers in attendance, for the years ending 31st August, rose from 5 *s.* 9½ *d.* in 1865 to 6 *s.* 10¼ *d.* in 1872. In 1873 the rate rose under the New Code to 7 *s.* 8¼ *d.*, and amounted in 1882 to 7 *s.* 9 *d.*; under the New Code, 1883, it rose to 9 *s.* 1¼ *d.* in 1883, 9 *s.* 6½ *d.* in 1884, 9 *s.* 10¼ *d.* in 1885, 10 *s.* 2¼ *d.* in 1886, 10 *s.* 2½ *d.* in 1887, 10 *s.* 3¼ *d.* in 1888, 10 *s.* 6¾ *d.* in 1889, 10 *s.* 8 *d.* in 1890; to 10 *s.* 11 *d.* in 1891, 11 *s.* 2¼ *d.* in 1892, 11 *s.* 3¼ *d.* in 1893, and 15 *s.* 10¾ *d.* in 1894; it is estimated at 16 *s.* for the financial year ending 31st March 1896.

H.—Section 1 (i) of the Elementary Education Act, 1891, provides that "after the commencement of this Act, there shall be paid out of moneys provided by Parliament, and at such times and in such manner as may be determined by Regulations of the Education Department, a grant (in this Act called a fee grant), in aid of the cost of Elementary Education in England and Wales, at the rate of 10 *s.* a year for each child of the number of children over three and under 15 years of age in average attendance at any public elementary school in England and Wales (not being an evening school), the managers of which are willing to receive the same, and in which the Education Department are satisfied that the regulations as to fees are in accordance with the conditions in this Act."

I.—Section 12 of the Elementary Education (Blind and Deaf Children) Act, 1893, empowers the Education Department to give aid from the Parliamentary Grant to a certified school in respect of education given to blind or deaf children to such amount and on such conditions as may be directed by or in pursuance of the Minutes of the Education Department in force for the time being.

K.—Section 97 of the Elementary Education Act, 1870, provides, *inter alia*, that "where the School Board satisfy the Education Department that in any year ending the 29th September the sum required for the purpose of the annual expenses of the School Board of any school district, and actually paid to the Treasurer of such Board by the rating authority, amounted to a sum which would have been raised by a rate of 3 *d.* in the pound on the rateable value of such district, and any such rate would have produced less than 20 *l.*, or less than 7 *s.* 6 *d.* per child of the number of children in average attendance at the public Elementary Schools provided by such School Board, such School Board shall be entitled, in addition to the annual Parliamentary Grant in aid of the public Elementary Schools provided by them, to such further sum out of moneys provided by Parliament, as, when added to the sum actually so paid by the rating authority, would, as the case may be, make up the sum of 20 *l.*, or the sum of 7 *s.* 6 *d.* for each such child, but no attendance shall be reckoned for the purpose of calculating such average attendance, unless it is an attendance as defined in the said Minutes," *i.e.*, Minutes of the Education Department in force for the time being.

L.—In calculating the provision for Grants to Residential Training Colleges, it is assumed that 100*l.* represents the cost of training a male, and 70 *l.* that of training a female student, during two years. The College is credited annually with 100 *l.* for each of its male, and 70 *l.* for each of its female students, who, after probationary service as a teacher, obtains a certificate; at the same time the total amount of the grant is limited to 75 per cent. of the approved expenditure, and also depends upon the number of students for the time being in residence. (*See* Articles 122–126 of the New Code.)

Grants are also made to Day Training Colleges, and to Day Queen's Scholars who attend a Residential College, under Article 127 of the New Code.

M.—This Sub-head provides for expenses to be incurred in carrying into effect the provisions of the Education Act which relate to the organization of school districts.

N., O., P.—These Sub-heads provide for expenses to be incurred in connection with a new Branch under the Director of Special Inquiries and Reports.

* It is sufficient to add *five-and-a-half* instead of *seven* months at the increased rate, because payment is ordinarily a few weeks in arrear of inspection.

G.—Section 9 of the Education of Blind and Deaf-Mute Children (Scotland) Act, 1890, enables the Scotch Education Department to give aid from the Parliamentarygrants to a school or institution in respect of education and industrial training given to blind or deaf-mute children, to such amount and on such conditions as may be directed by or in pursuance of the minutes of the Scotch Education Department in force for the time being.

H.—Section 67 of the Education (Scotland) Act, 1872, provides, *inter alia*, that "Where in any parish or burgh a school rate of not less than three pence in the pound on the rateable value of such parish or burgh shall be levied, and the whole produce of such rate is less than twenty pounds or than seven shillings and sixpence per child of the number of children in average attendance at the public schools provided by the school boards in such parish or burgh, such school board shall be entitled, in addition to the Parliamentary grant in aid of the public schools provided by them, to such further sum out of moneys provided by Parliament as will, together with the produce of the rate, make up the sum of twenty pounds or seven shillings and sixpence for each such child."

L.—Under Article 118 of the Scotch Code, a limited number of pensions may be granted to certificated teachers who have been employed in that capacity since 1862, when the former Minutes relating to pensions were cancelled. Under a Minute of the Committee of Council on Education, dated the 16th June 1884, it is provided that the limit imposed by Section 6 of Article 118 of the Scotch Code shall not affect the claims of teachers who were employed before August 1851.

M.—In calculating the Estimate for Grants to Training Colleges, it is assumed that 100*l.* represents the cost of training a male, and 70*l.* that of training a female student, during two years. The college is credited annually with 100*l.* for each of its male, and 70*l.* for each of its female students, who, after probationary service as a teacher, obtains a certificate; at the same time the total amount of the grant is limited to 75 per cent. of the approved expenditure, and also depends upon the number of students for the time being in training. (*See* Articles 86–90 of the Scotch Code.)

* It is sufficient to add five instead of six months at the increased rate, because payment is ordinarily a few weeks in arrear of inspection.

CYPRUS, GRANT IN AID

ESTIMATE of the Amount required in the Year ending 31st March 1896, as a GRANT IN AID of the Revenue of the ISLAND of CYPRUS.

CYPRUS, GRANT IN AID - - - - - - - - -	35,000	*29,000	6,000	—

* Supplementary Estimate, presented 28th February 1895.

The last Grant in Aid of Cyprus Revenues, viz., 10,000*l.*, taken in 1891–92, proved for the time being larger than was really necessary, as, when the Accounts to 31st March 1891 were closed, the net deficit to that date proved to be only 2,743*l.*, and the Local Revenue collected during 1891–92 was, for the first time since the Island was brought under British Administration, in excess of the Local Expenditure and the Tribute. In 1892–93, however, there was a deficit on the Accounts of the year of 14,260*l.*; but this was more than covered by the balance in hand at the commencement of the year. At the beginning of 1894 it was hoped that the deficit on the year 1893–94, which could be partly met by the balance in hand on 1st April 1893, might not be so large as to necessitate a Grant from Parliament in 1894–95, and therefore no provision was made to meet such deficit. This has not proved to be the case; and as, owing to the fall in the price of grain and other agricultural produce, there has been revealed on the closing of the Accounts for 1893–94 a deficit of nearly 29,000*l.*, the necessary provision to meet it was made in a Supplementary Estimate for 1894–95. The sum of 35,000*l.* now asked for is to cover the expected deficit on the Accounts of 1894–95, so far as it can be at present foreseen.

EXTRACT from Letter of Master of the Rolls, dated 17th December 1894.

Since the date of my last Report, on the 18th December 1893, the following additional Appendices to our Thirteenth Report have been issued :—

(2.) The Manuscripts of the Duke of Portland, Vol. II.
(7.) The Manuscripts of the Earl of Lonsdale.
(8.) The Manuscripts of the First Earl of Charlemont, Vol. II.

The Fourteenth Report of the Commission will be presented to Parliament in the course of next Session. In the meantime the following volumes, forming Appendices thereto, have been presented and published :—

(2.) The Manuscripts of the Duke of Portland, Vol. II., containing the Harley Papers, Part 1.
(3.) The Manuscripts of the Duke of Roxburghe's and other Collections in Scotland.
(4.) The Manuscripts of Lord Kenyon, and the Calendar of the Marquis of Salisbury's Manuscripts, Part 5. Volume III. of Mr. Maxwell Lyte's Report on the Duke of Rutland's Manuscripts is also almost completed at press, and it will be published very shortly.

Reports on the following collections, each of which will fill an ordinary Appendix volume in the series of this Commission's publications, are now in course of being printed :—

House of Lords, 1692, &c.
J. B. Fortescue, Esq.; Grenville Manuscripts, Vol. II.
The Marquis of Ormonde.
The Earl of Dartmouth; Papers relating to America.

And two other volumes, mostly in type, will be of a more miscellaneous character, the contents being made up of reports on the manuscripts belonging to the Corporations of Lincoln, Bury St. Edmunds, Hertford, and Great Grimsby; the Cathedrals of Hereford, Worcester, and Lichfield; the Earl of Buckinghamshire, the Earl of Onslow, the Earl of Lindsey, Mr. Wykeham Martin, Mr. Theodore J. Hare, and the Duke of Somerset.

Further progress is being made with the Calendar of the Harley Papers in the possession of the Duke of Portland, and of the Grenville Correspondence belonging to Mr. J. B. Fortescue; also with a Report on the valuable and interesting collection of Family Papers belonging to the Earl of Carlisle; and with the smaller collections of Mr. Round, M.P., Mr. Hodgkin, of Richmond, and others.

Mr. E. Fairfax Taylor and Mr. Felix Skene, who are engaged on a Calendar of the Manuscripts of the House of Lords, report that they have up to the present date prepared new matter equivalent to 440 printed 8vo pages, carrying on the Calendar to February 1706, and, in the case of an interesting inquiry by successive Select Committees on the Public Records, to a period several years later. They have, in addition, almost completed the passing through the press of the new volume of the Calendar, which will, it is expected, be issued at no distant date.

Note.—This Commission was appointed by the Universities (Scotland) Act, 1889 (52 & 53 Vict. c. 55), to inquire into and to regulate the constitution and administration of the Scottish Universities and Colleges thereof. The powers of the Commission were extended to January 1893, by Order in Council dated 30th July 1891, to January 1894, by Order in Council dated 5th August 1892, to 1st January 1895, by Order in Council dated 26th August 1893, and to 1st January 1896, by Order in Council dated 7th August 1894.

EXTRACTS rom the Secretary's letters, dated 30th July and 28th November 1894.

Six Ordinances, mentioned in my letter of 29th November 1893, as time expired Draft Ordinances, upon consideration of which, together with the objections lodged to them, my Commissioners were engaged, were in due course submitted to Parliament, and subsequently received the approval of Her Majesty in Council.

Five Ordinances, which were before Parliament at the date of my last communication, have also obtained the approval of Her Majesty in Council.

In the course of the period under review there have also been laid before Parliament 14 Ordinances.

Petitions against Ordinances for St. Andrew's University have been laid before the Privy Council. The Universities Committees, however, has not yet disposed of these, and it is understood that until the final decision of the Courts of Law has been obtained with regard to an action now pending in the Court of Session for the reduction of the Agreement between University College, Dundee, and St. Andrew's University, the Privy Council will not proceed further in the matter. A delay of at least some months will thus arise before these Ordinances can obtain the approval of Her Majesty. In the event of the Universities Committee sustaining the petitions against the Ordinances, or any of them, a still further delay in the final adjustment of the arrangements for the University of St. Andrew's will necessarily arise, while if the Agreement between the College and the University is held by the Courts to be null and void, Draft Ordinances regulating the affairs of the University of St. Andrew's alone may require to be prepared.

There have likewise been issued to the Universities 43 Draft Ordinances.

The time allowed for lodging objections to these Draft Ordinances has expired. The objections received have been considered, but the Ordinances will not be finally adjusted and submitted to Parliament until the Commissioners have had an opportunity of considering the objections to all the Draft Ordinances dealing with specific foundations for bursaries, scholarships, and fellowships.

Since November last my Commissioners have held 48 meetings, of which 22 were committee meetings, and in the course of which they examined 21 additional witnesses on such subjects as Finance and Bursaries. This makes a total of 307 witnesses in all since the commencement of the Commission.

The objections to the Draft Ordinances, referred to in my letter of the 30th July, as being under the consideration of the University bodies and others concerned, have now been received, and my Commissioners are preparing for their immediate consideration. There will, therefore, be upwards of 90 Ordinances, chiefly dealing with specific foundations of bursaries, scholarships, and fellowships, ready for submission to Parliament when it meets, 43 Ordinances having been held over, as stated in my former letter.

Since the 30th July evidence was heard on one occasion, the witnesses being representatives of the Senatus Academicus, University Court, and General Council of the University of Aberdeen, and the subject being the Draft Ordinances dealing with certain Foundations in that University.

It is impossible to say with certainty when the labours of my Commissioners will be completed, but it is not probable that a further extension of a year will be required.

Secretary's Report, dated 21st January 1895.

"The Commission held its first meeting on the 14th June 1894, and has since then held 13 additional meetings. It has taken oral evidence upon 12 days from 12 separate witnesses.

"The sittings upon four of these 12 days took place in London, upon the other eight days they were held in Dublin. Returns of considerable importance have been collected from the Treasury, Board of Customs, Inland Revenue Department, the Irish Departments, and other sources. Some of these have been already printed, and will appear as Appendices to the First Report of the Commission to Her Majesty, which is now in course of preparation.

"A Memorandum, prepared for the assistance of the Commission by Sir Edward Hamilton, K.C.B., of Her Majesty's Treasury, has already been published, and will also be included in the First Report."

* Certain Surveyors of Taxes in Scotland, who are Assessors under the Lands Valuation Act, and who have consequently to perform the duties of Registrars of Voters, receive various sums from local sources for their expenses and as remuneration for their services in preparing the Voters' Rolls, Register of County Council Electors, &c. According to the returns of those Surveyors, the sums thus received by them for the year 1893–94 amounted in the aggregate to 6,128*l.* 11*s.* 1*d.* out of which they claim to have defrayed expenses to the amount of 1,424*l.* 0*s.* 5*d.*, leaving 4,704*l.* 10*s.* 8*d.* as the net personal emolument derived from such sources by 20 Surveyors.

† *See* also under Sub-Head O.

‡ Those Surveyors and Assistant Surveyors, who prior to the present scale coming into operation (1st November 1888) were entitled to rise to a maximum of 400*l.*, retain their former right to do so. One Assistant Surveyor has a personal salary of 188*l.* 10*s.*

§ About 600 Clerks were employed in the year 1893–94, some for part of the year only.
